Your client may be eligible for accelerated, lab-free approval

For qualified applicants, the underwriting process may be faster and more convenient with no medical exams, labs or APSs.

Eligible Applicants Through AppAssist

Will your client qualify for accelerated underwriting?

Use this guide to help you determine if your client might qualify for lightning-fast, lab-free underwriting when submitting applications with AppAssist. It's best not to set the expectation that qualification is automatic; and explain to your client that full underwriting may be required after the telephone interview and is only available for Banner business. Applicants who do not qualify for accelerated approval seamlessly continue through traditional underwriting, with the same great product and pricing!

Use these parameters to help determine if your client might be eligible:

Lifestyle Elements That May Affect Eligibility

Many factors are taken into consideration during the client interview, including scores from third-party data sources, as well as medical and personal histories. The below lifestyle factors may have an adverse impact on determining an applicant's eligibility. While one or two of these circumstances usually has no effect, cumulatively they may negatively impact risk classification. This may lower an underwriting offer by one class, or cause an applicant to be ineligible for accelerated underwriting.

Automated checks run during the AppAssist interview:

- Identity verification
- Medical Information Bureau (MIB)
- Motor Vehicle Reports (MVR)
- Prescription history check
- FCRA consumer database check

Lifestyle factors to keep in mind:

- Home ownership
- Level of education
- · High amounts of debt or delinquent debt
- Evictions
- Criminal History
- Low credit scores

Path To Accelerated Underwriting

STEP 1

Review the eligibility requirements, as well as the disqualifying non-medical circumstances and medical conditions listed on page 1.

STEP 2

Submit a drop ticket to AppAssist.

STEP 3

Legal & General America's AppAssist Call Center conducts a telephone interview with the client to complete the formal application. Third-party data checks are run simultaneously.

STFP 4

Client uses voice-signature to sign the application over the phone.

SIEP 5

The decision to allow an applicant through accelerated underwriting is usually made during the interview. At the end of the interview, the client may be approved instantly, or within 48 hours of the interview. If the client does not qualify, then a paramed exam will be scheduled and traditional underwriting requirements will continue.
